## RUMORED BRITISH SUBMARP IS TO RAM DEUTSCHLAND

Cargo Steamer Lying in Wait for  
Returning Submarine

### UNDERSEA BOAT READY TO LEAVE

Machinery Has Been Given Final Test  
and Found to Be in Perfect  
Condition.

Baltimore, Md., July 20.—A British  
cargo steamer which anchored off the  
berth of the merchant submarine  
Deutschland gave officials of the East-  
ern Forwarding company considerable  
worry tonight. The British ves-  
sel is in a position to observe any  
movement of the submarine.

The searchlight of the Forwarding  
company's tug Timmins was flashed on  
the Britisher intermittently through  
the night.  
Captain Zach Cullison of the Tim-  
mins reported for duty aboard the tug  
tonight. He had spent several days  
around the Virginia capes, presumably  
getting a line on the movements of  
foreign warships.

It has been reported to officials  
looking after the Deutschland's inter-  
ests that a force of strangers has been  
keeping close tabs on the subma-  
rine's movements. Others are said to  
be stationed at strategic points all  
down the Chesapeake bay to the capes.

Prepared to leave port at any mo-  
ment, Capt. Paul Koenig, commander of  
the submarine, put on his uniform to-  
day for the first time since he landed  
here 11 days ago and for several hours  
this morning studied the charts of the  
Potomac river and Chesapeake bay  
with Capt. Frederick Hirsch, com-  
mander of the North German Lloyd liner  
Neckar. When Capt. Koenig went  
back aboard the undersea liner he  
took with him a duplicate manifest of  
the ship's cargo. Another copy was  
ready to be taken to the custom house.

Capt. Koenig said he would not leave  
his ship again and indicated an early  
departure.

It was understood the Deutschland's  
engines and submerging machinery  
had been given a final test and were  
found to be in perfect condition.

## PARALYSIS DEATH RECORD CLOSE TO HIGHEST FIGURE

Thirty-One Children Died in and  
Around New York Yesterday

### 119 NEW CASES ARE REPORTED

On Only One Day Since Epidemic Be-  
gan Have Fatalities Been So  
Numerous.

New York, July 21.—On only one  
day since the inception of the infantile  
paralysis epidemic have more fatali-  
ties shown thirty-one deaths and 119 new  
the last twenty-four hours. The period  
shows thirty-one deaths and 119 new  
cases in the five boroughs of New York  
city.

The latest figures show that the  
mortality rate still is slightly less than  
twenty per cent. Since the beginning  
of the epidemic there have been 487  
deaths and 2,446 cases.

Although the number of deaths from  
the disease increased there were fewer  
new cases reported and this fact  
Health Commissioner Emerson said,  
was encouraging.

Dr. Charles E. Banks, senior surgeon  
of the public health service, in charge  
of interstate control of plague, said to-  
day that he had thirteen surgeons  
stationed at railroads and ferries to  
examine interstate travelers and that  
the force would soon be increased to  
cover steamship lines for New England  
and Atlantic coast points.

Parents were urged today by the  
oral hygiene committee of the first and  
second dental societies to give particu-  
lar care to the mouths and teeth of  
their children. This suggestion re-  
ceived prompt support of Dr. Matthew  
Carney, in charge of the health depart-  
ment's dental supervision.

Health department officials and phy-  
sicians who have been attempting to  
discover a remedy for infantile paral-  
ysis, showed keen interest today in a  
statement made by Dr. D. McL. Whit-  
taker of Brooklyn, that in about dozen  
cases of the disease treated by him,  
beneficial results had been obtained  
from hypodermic injections of quinine  
and urea-hydrochloride.

Dr. Whittaker said tonight that this  
prescription can be used internally but  
that he prefers to use it as an injection  
because it acts as an anesthetic and  
does not disturb the child's stomach  
as it does when given internally.

"The cases I have treated have been  
very interesting to me," Dr. Whittaker  
said tonight. "In all of them marked  
improvement has been observed a  
few hours after injections of the prepa-  
ration."

### THREE STEAMERS SUNK

Grangemoor in the Mediterranean and

crews were saved.

### MAJOR M. C. BUTLER KILLED

States cavalry and Mrs. H. J. Spannell,

### RUSSIAN AT ALL POINTS BECOME AGGRESSORS

Berlin Anxious Over Fate of Her Al-  
lies at Kovel

### FRENCH ATTACK ON THE SOMME

Joining of British and French Lines at  
Hardcourt Adds to Strength  
of Combined Offensive

London, July 20.—According to  
Rome reports the violent Russian of-  
fensive has been resumed in the Car-  
pathians at Kovel, Vladimir-Volynski  
and in the Riga section.

Unofficial dispatches from Petrograd  
say that the second stage of the battle  
for the possession of Kovel is contin-  
uing with extreme violence. General  
Brusiloff has brought up crushing  
forces from the Stokhod to the Lipa to  
attack the Austro-Germans, and anxi-  
ety as to their ability to withstand a  
continuance of the pressure is begin-  
ning to be reflected in the Berlin com-  
ments on the situation.

Paris, July 21.—Both the British and  
French armies today report further  
gains. The French beyond the Somme  
forced their way still nearer to  
Peronne and repulsed fierce German  
attacks south of that point.

The British under Gen. Haig cap-  
tured a part of Foreaux Wood north of  
Bazentin and drove the Germans from  
their advanced trenches.

London, July 20.—While a strong but  
unsuccessful German counteroffensive  
is still being fought out on the  
British front, the Teutonic armies find  
themselves again the object of simulta-  
neous attack on both eastern and  
western fronts.

The recent successful advances hav-  
ing brought the British into line with  
the French at Hardcourt, the French  
offensive, which has been for some  
time in preparation, has been renewed  
energetically on both sides of the  
Somme, thus far successfully.

The French, having renewed their  
offensive, captured a considerable  
stretch of German trenches in the  
neighborhood of Estrees and in en-  
gagements on both sides of the river  
have taken nearly 3,000 additional  
prisoners.

tower visible is reported to have been  
sighted this afternoon entering Long

rine, captured German merchant submarine,  
the Bremen.

## PAIR OF BAY MARES TAKEN FROM BARN IN ARLINGTON

E. B. Baldwin Searching for Two  
Valuable Horses

### TRAIL IS OBLITERATED BY RAIN

Neighbor's House Entered by Persons  
Who Evidently Were in Need of  
Something to Eat.

E. B. Baldwin, who lives on the main  
road two miles south of Arlington vil-  
lage, was in the village today endeavor-  
ing to obtain trace of two valuable  
horses that were stolen from his barn  
some time during Thursday night.

The stolen horses are a pair of bay  
mares that have been used mostly as  
drivers. One of the animals is 9 years  
old and weighing about 1000 pounds.  
There is a star in the forehead and  
there is a spot on one hip where the  
hair has been taken off. The other  
horse is dapple brown, eight years old,  
weighing about 1100 or better and  
marked with white star in forehead.

Mr. Baldwin retired early Thursday  
night. When he visited the barn about  
5 o'clock this morning both horses  
were missing. So far as he could as-  
certain the thieves had taken nothing  
but the horses. No wagon of any  
kind had been taken nor were the  
bridles or any parts of the harness  
missing. When put up for the night  
one of the horses was hitched with a  
head halter and the other with a neck  
halter.

Efforts this morning to track the  
thieves failed to give any satisfactory  
results, as the rain last night obliterated  
any trail that might have been left.

Mr. Baldwin went thoroughly over  
the ground in the vicinity of his home  
but without obtaining much of a clue.  
From faint tracks beside the road he  
concluded that the thieves must have  
started toward Shaftsbury and Ben-  
nington. James P. Cullinan of Arling-  
ton, who was over the road at an early  
hour in an automobile reported that  
he saw the tracks of two horses in the  
road near Shaftsbury station. From  
the position of the tracks Mr. Cullinan  
believed that the horses were being  
led.

One of the families living on the  
Clarence L. Holden farm returned  
home about midnight and were consid-  
erably alarmed to find that lights were  
burning in the house which they had  
left in darkness early in the evening.

Upon investigating they found that the  
house had been entered by one or more  
persons who had prepared themselves  
a meal from canned preserves and  
other provisions. Other than a quanti-  
ty of food nothing was taken from the  
house.

Mr. Baldwin has telephoned to the  
authorities at nearby towns in this  
state, New York and Massachusetts,  
but as yet has obtained no information  
that would lead to the recovery of the  
stolen horses.

### REAL ROMAN PUNCH

In Evidence at Rehearsals for Product-  
ion of Julius Caesar

It may be asking too much of the  
imagination to see in Library hall a  
street in old Rome. But certain it is  
that the cheers of greeting to the popu-  
lace and the ominous growlings and  
mutterings accompanying Antony's  
speech supplied by the people who re-  
hearsed there Tuesday evening, gave  
the necessary atmosphere. Mrs. Elliot  
puts as much vim and energy into re-  
hearsal, as leader of the citizens, as  
she bespeaks from them, and they  
caught her spirit valiantly.

William Cushman, known in his cap-  
acity of first base hit only as a  
base-ball player, now qualifies in this  
same role as an actor. We are grateful  
for the training which has made him  
one of our most valuable citizens;  
there is nothing the matter with his  
lung.

If on a night like Tuesday, when the  
thermometer went out of sight, so  
much enthusiasm and interest can be  
generated, it is proof positive that the  
real Roman punch is not lacking in the  
community.

### ROE-MATHERS

Wedding at St. Francis de Sales  
Church Wednesday.

A pretty but quiet wedding was  
solemnized at the St. Francis de Sales  
church Wednesday afternoon when  
Miss Maria Mathers became the bride  
of Ernest Roe, Rev. T. R. Carly per-  
formed the ceremony.

The bride was dressed in a blue  
traveling suit and carried a white  
prayer book. The matron of honor, a  
sister of the bride, Mrs. Archibald  
Hurley, was dressed in blue crepe de  
chene and carried sweet peas. Arch-  
ibald Hurley acted as best man.

Mr. and Mrs. Roe left by automobile  
for Albany and took the boat there for  
an extended trip to New York amid  
showers of rice and confetti. The  
couple received many beautiful gifts  
of cut glass, linen and gold. Mr. and  
Mrs. Roe will reside on North street  
after their return.

## TRIAL TRIP OF AUTO BUSSES PROVED ENJOYABLE

Cars Ride Comfortably and Make  
Good Time

### MUCH INTEREST EN ROUTE

Residents of Northern Towns Show  
Appreciation of Service New Line  
Will Provide.

Stockholders of the Bennington and  
Dorset Bus line who accompanied the  
cars on the trial trip Thursday after-  
noon were much encouraged by the  
interest displayed by the residents all  
along the line. On the journey north-  
ward the buses stopped at a number  
of points and on all of these occasions  
people gathered about the cars and  
made numerous inquiries, particularly  
in relation to the schedule. The fea-  
ture of the new business that appeared  
to be particularly pleasing was the fact  
that the buses would make four trips  
a day, thus affording an opportunity  
for a long or short stay in the towns  
at the end of the line or at intervening  
points. There were numerous in-  
quiries for time cards which were  
promised as soon as it was determined  
what kind of a schedule could be  
maintained.

At South Shaftsbury, Arlington,  
Manchester, Manchester Center and  
Dorset the buses attracted considerable  
attention and every expression of  
opinion was encouraging. Every one  
who had anything at all to say seemed  
confident that the line would be largely  
patronized both for business and plea-  
sure. A considerable stop was made at  
Dorset where the party was especially  
impressed with the interest manifest-  
ed in the venture and the gratification  
of the people over the convenience  
that they would derive from the bus  
line.

The trip was made primarily for the  
purpose of establishing a schedule and  
to take one of the cars to the Dorset  
terminal ready for the return trip this  
morning. On the northbound trip no  
effort was made to keep track of the  
running time because of the frequent  
stops but when returning but one stop  
was made, at Arlington, and the  
running time was just one hour and 45  
minutes. These figures justified the  
estimation of the management that  
the trips between Bennington and  
Dorset could be made in two hours  
with an allowance to pick up the traf-  
fic.

The stockholders, who made the trial  
trip, Earl W. Williams, Henry D. Fil-  
more and A. C. LaMarre, rode in one  
bus to Dorset and returned in the  
other. At Arlington James P. Cullinan  
of the Arlington garage joined the  
party. All found the cars much more  
comfortable than they expected. In  
spite of the light load and the fact that  
cars are only recently out of the fac-  
tory both trips were made with as  
much comfort as could have been ex-  
pected in many touring cars. The  
buses are equipped with pneumatic  
tires. When the stiffness of the  
springs and upholstery disappears  
with use even greater riding comfort  
will be available.

On the return trip the bus picked up  
the first passenger at Manchester, a  
traveling man who expressed himself  
as highly pleased to avoid riding to  
Bennington on such a warm day.

This morning the bus left Benning-  
ton with three passengers and early  
this forenoon a telephone message was  
received from McNaughtan's hotel at  
Manchester stating that a bus load of  
guests at the house desired to make  
the trip to Dorset on the early after-  
noon run.

### MOB REHEARSAL

One of the Important Parts of Julius  
Caesar.

There will be a second rehearsal of  
the mob in Library Hall this evening  
at 7:30. As so few rehearsals are re-  
quired of those who play the part of  
citizens, soldiers and senators, it is  
up to each participant to make every  
rehearsal telling. Enthusiastic sup-  
port manifested in this way will show  
that Bennington is maintaining its  
well-earned reputation for public spirit  
and co-operation. That we have this  
reputation is evidenced by the follow-  
ing letter from Charles R. Cummings,  
editor of the Vermonter.

"I am pleased to make a note of  
Bennington's next step in popular  
favor. I shall hope to be present at  
the presentations and to see a  
part of the magnetic impulse Ben-  
nington is so generally credited  
with.

Very appreciatively,  
Charles R. Cummings.

This is a tribute that any town  
could be proud of. Here is another  
opportunity for its citizens to prove  
that as a public spirited community it  
stands in the front rank, unsurpassed  
by any.

### PLAN NEW GARAGE FOR BENEFIT OF ITS OWNERS

They Will Have Preference Over  
Any Transients

### MUST BE FIRST SERVED

Option Secured on Hawks Property at  
the Corner of South and Hillside  
Streets.

If plans now well under way mater-  
ialize the village of Bennington will, in  
the near future, be provided with one  
of the largest automobile garages in  
the state. The building of the garage  
will be the outcome of the organization  
of the Bennington automobile club  
about five years ago and will be located  
at the corner of South and Hill-  
side streets, opposite the stone shop,  
the present location of William R.  
Lowe who will be the proprietor.

If the garage is built it will be a  
fireproof structure with a frontage of  
25 feet and a depth of 150 feet. Other  
than the roof the entire construction  
will be concrete and glass, the walls  
to be principally of the latter material  
in order to permit thorough lighting of  
the entire interior.

An option on the site selected has  
been secured from the owners, Mrs. E.  
B. Huling and William H. Cone. The  
small dwelling near the corner will be  
removed and the brick house in the  
rear will be demolished. Because of  
the grade on Hillside street it will be  
possible to construct a ground level  
entrance into the second floor, thus do-  
ing away with an elevator.

The proposed building will carry out  
the idea on which the Bennington Au-  
tomobile club was organized. The  
garage will provide service for local  
automobilists and tourists but those  
who hold membership cards will have  
the preference in the matter of time.  
In other words, if a member's car is  
in the garage his wants must be at-  
tended to before those of a resident or  
a tourist.
